18 Hours Before Death

Designed to be of use to polymer scientists, engineers, chemists, physicists, and materials scientists, the book covers carbon nanotube fundamentals to help polymer experts understand CNTs, and polymer physics to help those in the CNT field, making it an invaluable resource for anyone working with CNT-polymer composites. The first step towards solving a problem is recognizing it, and surveillance provides this first step.

Robinson Crusoe

The identification and selection process for Level III programmes should be more stringent than those for Levels I and II in order that the specific potential of gifted students can be unearthed.
